DESCRIPTION OF CREDIT RATINGS

For purposes of these Guidelines, the credit rating equivalent shall be as follows:

	Rating
INVESTMENT GRADE	- A
Highest Quality	Aaa or AAA
High Quality (Very Strong)	Aa or AA
Upper Medium Grade (Strong)	Α
Medium Grade	Baa or BBB
NON-INVESTMENT GRADE	r
Lower Medium Grade (somewhat speculative)	Ba or BB
Low Grade (speculative)	В
Poor Quality (may default)	Caa or CCC
Most Speculative	Ca or CC
No interest bearing paid or bankruptcy petition filed	C ,
In default	C or D

Definition of Symbols

<u>Aaa or AAA</u>: Smallest degree of investment risk. Interest payments are protected by a large or by an exceptionally stable margin and principal secured. While the various protective elements are likely to change, such changes as can be visualized are most unlikely to impair the fundamentally strong position of such issues.

<u>Aavor AA</u>: Margins of protection may not be as large as in Aaa issues. Fluctuations of protective elements may be of greater amplitude or there may be other elements present which make the long-term risk appear somewhat larger than for Aaa-rated securities.

A: With favorable investment attributes and are considered upper-medium grade obligations. Factors giving security to principal and interest are considered adequate but elements may be present which suggest a susceptibility to impairment sometime in the future.

Baa or BBB: Neither highly protected nor poorly secured. Interest payments and principal security appear adequate for the present but certain protective elements may be lacking or may be characteristically unreliable over any great length of time. Such issues lack outstanding investment characteristics and in fact have speculative characteristics as well.

Ba or BB: Judged to have speculative elements. The issuer's capability to pay for such issues cannot be considered as well assured. Often, the protection of interest and principal payments may be very moderate and thereby not well safeguarded during both good and bad times over the future.

B: Generally lacks the characteristics of a desirable investment. Assurance of interest and principal payments or maintenance of other terms of contract over any long period of time may be small.

<u>Caa or CCC</u>: Poor standing. High possibility of default and there may be present elements of danger with respect to principal or interest.

Ca or CC: Very poor standing. Has other marked shortcomings. The issue may be in default.

<u>C or D</u>: In default.
